An exceptional custom home was newly built in South Oakville. This stunning home with fantastic interior and architectural design offers a gracious traditional exterior with a spectacular modern interior open concept. All finished living space was designed and built with great attention to detail and top of the line craftsmanship throughout both floors. High ceilings with beautiful skylight above the middle of staircase, gorgeous hardwood floors and staircase, custom arches and millwork, built-in speakers, oversized porcelain tiles, custom cabinetry and pantry, two-storey foyer, state-of-the-art appliances, counters and backsplash. The spacious living room, formal dining room, oversized island and open concept of family and kitchen, pantry and mud room are in the main level. The second level features an impressive master suite with dressing room, a breathtaking spa ensuite and 3 additional bedrooms and laundry room. Great location and close to everything!
